

Classroom Hosting

Instructor-Led Training

We're excited you're considering hosting an HSI Instructor-led class at your facility. Hosting a class enables you to select courses specific to your students' needs and share expenses with other utilities.

Class Size:

Minimum number of students: **12**

Maximum number of students: **20**

There are two ways to host an instructor-led class:

- A closed class is for students only from your company with an ideal class size of 12 to 20 students.
- An open class is open to any utility's students as well as your own. Class information is published on our public calendar and promoted through our sales team. As the host company, you provide classroom space and some basic supplies such as an LCD projector, projection screen, and assorted color markers.

By hosting a class, you can select the courses from the list below that best fit your students' needs.

Melanie Payne : 704.815.7906
mpayne@hsi.com

Lori Burk : 704.815.7907
lburk@hsi.com

Kathy Cross : 704.815.7909
kcross@hsi.com

HSI and HSI_SOS_001 are recognized by the North American Electric Reliability Corporation as a continuing education provider who adheres to NERC Continuing Education Program Criteria.

INSTRUCTOR-LED COURSES
