

# HSI EMERGENCY MEDICAL RESPONSE

The *HSI Emergency Medical Response for Non-EMS Personnel* training program provides a detailed and comprehensive approach for managing out-of-hospital medical emergencies prior to the arrival of EMS. The program is designed to provide non-EMS responders more depth and exposure to standard first aid training topics to provide richer and more advanced training. It meets and exceeds workplace first aid training requirements and satisfies the desire to learn more than just basic first aid without the burden associated with EMS provider training and certification.

## Intended audience

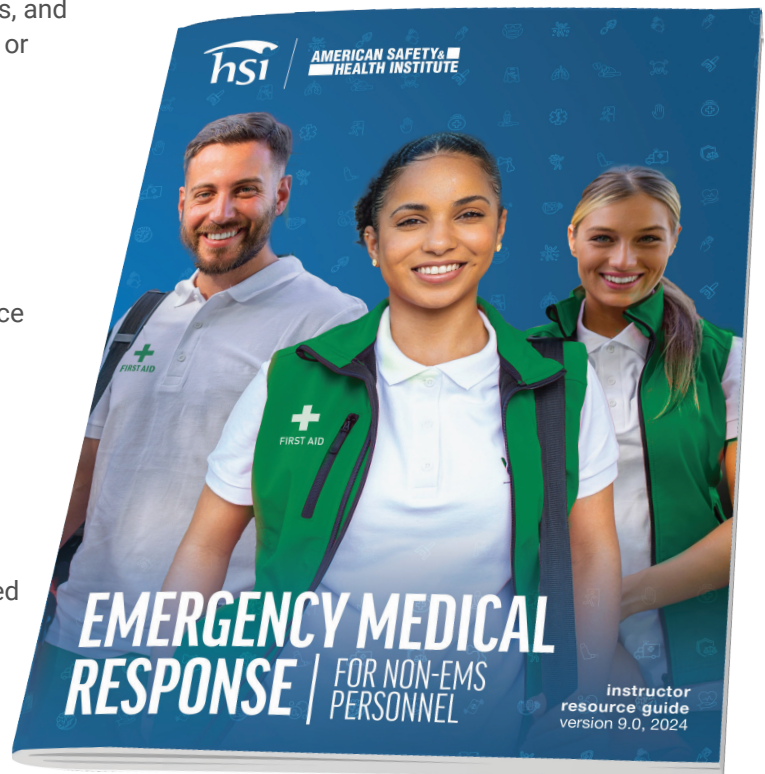

Law enforcement and correctional officers, security personnel, event control staff, workplace emergency response team members, athletic trainers, guides, and other individuals who are not EMS professionals or healthcare providers.

## Class configurations

- Max student to instructor ratio for cognitive sessions: 24:1
- Max student to instructor ratio for skills practice sessions: 12:1, 6:1 recommended
- Max student to equipment ratio: 6:1, 3:1 recommended

## Instructor Prerequisites

A current and active, Level 3 (or above) authorized HSI Instructor

## Participant Prerequisites

Current certification in healthcare-level CPR training, or Basic Life Support (BLS). BLS training and certification can also be done concurrently as part of the *HSI Emergency Medical Response for Non-EMS Personnel* class.

## HSI-approved training materials

### Instructor materials

- *HSI Emergency Medical Response* digital Instructor Resource Guide (1 per instructor)
- HSI BLS Program Package (when incorporated)

### Student materials

- *Emergency Medical Responder: First on Scene, 12th ed.* (one per student)
- HSI BLS Handbook (when incorporated) One per student, print or digital

## Recognized certification period

2 years

## Recommended time to complete

- **Initial Training:** Approximately 47-50 hours (not including professional-level Basic Life Support)
- **Renewal Training:** 16-18 Hours

## Successful completion (certification)

- **Written evaluation:** Required
- All chapter-by-chapter cognitive and psychomotor learning objectives identified in the Pearson *Emergency Medical Responder: First On Scene 12th Edition* textbook are considered core objectives for *HSI Emergency Medical Response for Non-EMS Personnel* training.
