# BLOODBORNE PATHOGENS (BBP)

The *HSI Bloodborne Pathogens* program includes information that will help students understand what bloodborne pathogens are and how risks of exposure can be reduced for themselves and others.

- ✓ *HSI Bloodborne Pathogens* has been approved by the HSI Medical Advisory Board and reviewed by the HSI Advisory Council.
- ✓ The program assists in satisfying the training requirements of the U.S. Department of Labor, OSHA Bloodborne Pathogens Standard 29 CFR 1910.1030.

## Intended audience

Individuals who are trained as a CPR, AED, and/or first aid provider, or employees who have an identified job classification in which there are tasks or procedures that increase the risk of exposure to bloodborne pathogens.

## Delivery options

- Traditional Classroom
- Blended Learning

## Instructional elements

- *HSI Bloodborne Pathogens* Student Book (one per participant, print or digital)
- *HSI Bloodborne Pathogens* Instructor Guide (one per instructor, print or digital)
- *HSI Bloodborne Pathogens* media presentation (program video, or computer/online blended class)

## Online portal

- Streaming/Offline video presentation player
- Create custom playlists
- Pre-built digital Performance Evaluations
- Track past, present and future classes

## Certification period

- 1 year from month of issue

## Student certification requirements

- Evaluation of the core knowledge objectives is accomplished by informal observation and questions throughout the training.
- Written evaluation: Only necessary if required by a regulatory agency.

## Student / Instructor Ratio

- There is no restriction on the number of students in a training class

## Recommended time to complete

- About 1 hour

## Topics Covered
