How much time do I have to play HSI Blue Ocean Brain Brain Exercises?

Are Brain Exercises available in the Library?

In the Brain Exercise Double Digits, why can't I connect two numbers?

In the Four-Letter Words Brain Exercise, why are some words not accepted?

Can I earn HSI Blue Ocean Brain points from Brain Exercises?

The HSI Blue Ocean Brain Brain Exercises are a great way to take a quick mental break throughout the day! Learners may earn points by interacting with Brain Exercises and the number of points awarded depends on the Brain Exercise. Some Brain Exercises may be played multiple times, including:

Beat Match	Double Digits	Flipside	Letter Shuffle	Shapeshifter
Buried Treasure	Estimator	Flubble	Out of School	Tinted
Card Swap	Even and Odd	Four-Letter Words	Perfecto	
Desk Artifacts	Flashback	Glassworks	Safe Waters	

For these Brain Exercises, a Learner may earn between 0-12 points. Most of these Exercises are timed, depending on an organization's selected time limit. Some Brain Exercises can be played once per day, including:

Cryptic Words	Go Figure	Remote Association	Word Up
Figure It	Picture Perfect	Select Correct	Zoom
Go Figure	Pipes	Word Slide	

For these Brain Exercises, a Learner may earn between 0-12 points; speed bonuses may also be earned for finishing a level quickly. Some Brain Exercises will offer hints, but keep in mind that accessing the hint deducts 1 point from the points awarded at completion.

The Brain Exercise Lighten may be used as many times throughout the day as needed. Two points will be earned for the first session only.

How much time do I have to play HSI Blue Ocean Brain Brain Exercises?

Most Brain Exercises may be played for up to 5 minutes per day, although this may vary depending on the Brain Exercise and your organization's specific HSI Blue Ocean Brain experience. Some Brain Exercises may only be played or completed for BOB Points once per day, while others allow for multiple rounds of play within the specified daily time limit.

Are Brain Exercises available in the Library?

At this time, Brain Exercises are not available in the Library. Currently, only Lessons and Assets are available in the Library; however, the Brain Exercises refresh daily, so we encourage you come back each day to interact with new Brain Exercises!

In the Brain Exercise Double Digits, why can't I connect two numbers?

To connect two numbers in the Double Digits Brain Exercise and remove the numbers from the board, the following conditions must be met:

- Do the two numbers selected add up to the sum provided at the top of the board (i.e. Make 8, 10 or 12)?
- In order to connect one number to another, am I making fewer than three "turns" on the board?

The connecting "line" between two numbers can only travel and turn horizontally and vertically, never diagonally.

In the Four-Letter Words Brain Exercise, why are some words not accepted?

If your organization's HSI Blue Ocean Brain experience includes Brain Exercises, you may be familiar with the Brain Exercise, Four-Letter Words. This Brain Exercise looks up words in a large dictionary, but there is a possibility that some words may not be in the dictionary. Technical terms, proper nouns, slang, and non-English words may not be accepted.
