

Streamline Workforce Compliance and Competency

Managing workforce onboarding, training and compliance across multiple roles, sites and contractors, can be challenging. The HSI Competency Management System helps simplify these processes by bringing everything together into one intuitive platform.

Whether it's tracking training records, spotting gaps in compliance, or getting your direct staff and contractors site-ready — gain the visibility and insights to reduce risk, move faster, and stay focused on delivering safely, even in the most complex environments.

Smarter Compliance and Competency Management

Competency Management: Gain clearer insights into skills gaps to help ensure staff and contractors are competent at the point of service.

Inductions & Onboarding Management: Digitize and automate onboarding for staff and contractors with multilingual induction paths, toolbox talks, eLearning, and essential forms.

Training & eLearning Coordination: Centralize training records with a digital matrix and real-time compliance tracking, making it easier to manage workforce competency.

Access Management Control: Help manage site access by integrating with your systems — supporting controlled entry for trained and compliant workers.

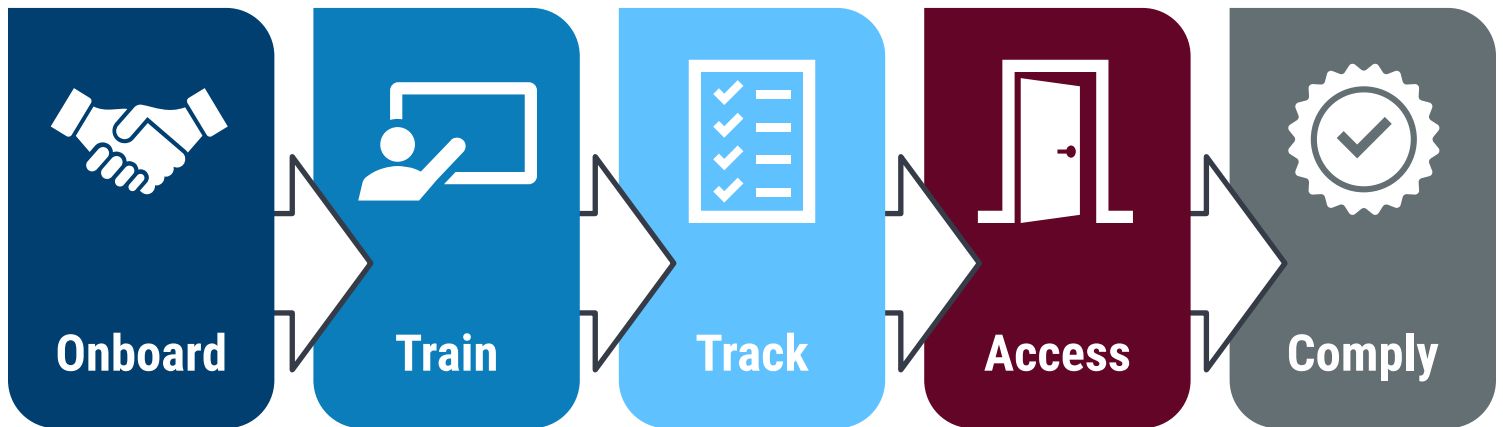

Supply Chain Compliance: Simplify subcontractor and supplier onboarding while helping make sure they meet compliance and regulatory requirements.

"The Competency Management System has bought me back hours of time on a daily basis since we started using the platform."

Dan O'Brien: Siemens Energy

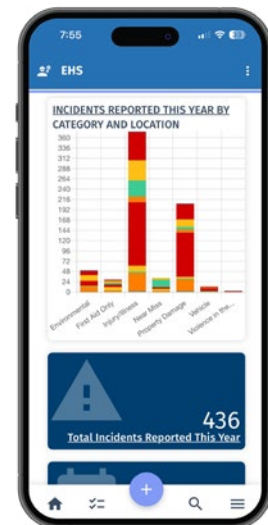

A simple, streamlined journey from induction to compliance.

Whether you're managing a dispersed workforce, onboarding contractors daily, or coordinating with complex supply chains, The Competency Management System offers a smarter way to stay in control.

Why Choose the HSI Competency Management System?

- **24/7 Onboarding & Training:** Anytime, anywhere access for staff and contractors.
- **Multilingual Onboarding Capabilities:** Simplify the induction process.
- **Real-Time Compliance Tracking:** Instantly track inductions, training and qualifications.
- **Accelerate Qualification:** Speed up supply chain readiness and site access.
- **Reduce Admin & Overheads:** Automate processes and cut admin time.
- **Close Skills Gaps:** Gain insights into workforce competency and compliance needs.
- **Enhance Safety:** Only fully inducted workers gain site access.
