

Contractor Management

Ensure contractor compliance within one intuitive system.

[HSI EHS Contractor Management Module](#) revolutionizes the way organizations engage with visitors and contractors. With self-registration capabilities and automated contract approvals, our solution simplifies the onboarding process while ensuring compliance with essential trading information. Seamlessly integrating induction management and site entry, our Contractor Management provides a comprehensive system for efficient and compliant contractor engagement, empowering organizations to enhance safety, streamline operations, and foster a culture of accountability.

Use Cases

[HSI EHS Contractor Management](#) would benefit organizations which meet any of the following:

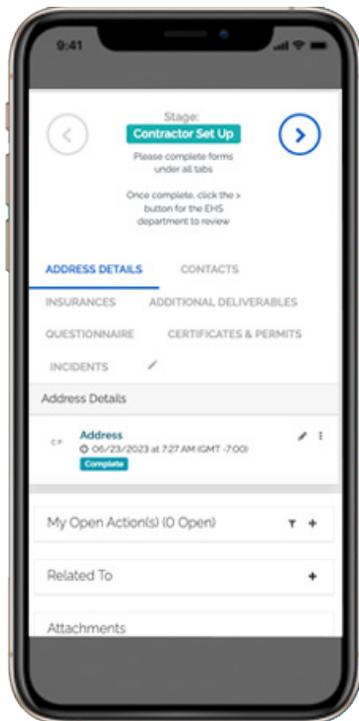

- Frequently engage with a large number of contractors
- Have complex contractor workflows with multi-stage approvals, document management and compliance verifications
- Operating in highly regulated industries or environments that need to adhere to safety protocols
- Focused on risk mitigation by wanting to enforce pre-qualification assessments, verifying contractor qualifications and monitoring contractor performance
- Seeking to efficiently allocate their resources by having a centralized single-source solution
- Have remote workplaces and need to ensure the health and safety of their contractors [hsi.com](https://www.hsi.com)
- Want their contractors to access critical information, anywhere, anytime

The HSI Difference

Complete Oversight & Risk Mitigation: Track safety [incidents](#), [manage documents](#), monitor [contractor compliance](#) and enforce standardized processes through a centralized, interconnected system.

Reduced Administration: Ease the burden and simplify contractor management by self-registration for contractors, automate contract approvals, facilitate document management and track compliance requirements.

Ultimate Configurability: Customize Contractor Management to align with organizational, regulatory, and industry standards, while ensuring data security through customizable access controls. Seamlessly connect contractors, promoting efficient engagement, and streamlined contractor management processes.

Generate Actionable Insights: Gain actionable insights including contractor compliance performance, safety incident trends, and evaluation of contractor performance, enabling organizations to make informed decisions and drive continuous improvement in contractor management practices.

Flexible Deployment: Configure our out-of-the-box Contractor Management capabilities to meet your organization's unique requirements, while increasing contractor engagement.

Seamless Connectivity: Frictionless integration with the broader HSI EHS System and using the same UI. Link to other modules such as incident management, checklists, near-misses and more.

Risk & compliance: Adhere to various standards and regulations including RESTful API, SSO, 2FA, SAML 2.0, SOC 1-2, OSHA, DOT, OH&S, ISO 2701, ISO 9001, ISO 45001, EPA and more.

Features:

- User-friendly interface to increase engagement
- Mobile capability – submit from anywhere, at any time
- Flexible workflow
- Advanced reporting
- Connect to users profiles
- Role based access
- Seamless integration with training and SDS management
