

Fleet Management

Maximize fleet efficiency to receive optimal operational performance.

Experience the transformative power of our single-source EHS platform for all your fleet management needs. Our capability provides a secure and user-friendly platform, enabling you to streamline and optimize your fleet operations while ensuring safety, compliance, and sustainability. With real-time data analysis, reporting, and alerts, you gain the ability to quickly identify areas for improvement and drive continuous enhancement in your fleet management program. From vehicle safety to regulatory compliance, our Fleet Management has got you covered.

Use Cases

HSI EHS Fleet Management would benefit organizations which meet any of the following:

- Have a sizable fleet of vehicles
- Have safety-critical operations that need to enhance drive safety, monitor driver behavior, implement driver training programs, and track vehicle maintenance and repairs
- Looking to optimize fleet-related costs such as maintenance expenses, vehicle downtime, and more
- Are governed by strict EHS regulations and standards, making it important to monitor and maintain compliance
- Need to capture vehicle inspection data such as routine inspections, pre and post trip inspections and more
- Track driver compliance documentation such as a driver qualification file

Complete oversight & risk mitigation Monitor vehicle usage, driver behavior, maintenance schedules, and compliance and safety protocols. Leverage comprehensive data analysis and reporting capabilities to proactively identify potential risks and drive continuous improvement.	Reduced administration Eliminate manual paperwork and duplication of effort by housing maintenance schedules, vehicle inspections, driver records and in one single source. Automatically generate powerful reports with zero errors to increase operational efficiency.	Ultimate configurability Match forms, workflows, alerts notifications, reports to your organizations uniqueness. Let HSI EHS Fleet Management capabilities fit into your organization to result in a high efficient and tailored solution to fit your fleet management operations.
Generate actionable insights Send automated alerts to maintenance crew, notify them of vehicle deficiencies, inform managers of incidents or hazards, show drivers which vehicles are in and out of service, notify drivers of outstanding compliance documents and more.	Flexible deployment HSI EHS facilitates easy onboarding and enables you to roll out specific components or features gradually. This allows employees to adapt easily while minimizing disruptions to their daily operations.	Seamless connectivity Frictionless integration with the broader HSI EHS platform and using the same UI. Link to other capabilities such as checklists, incidents, documentation management, and more.
Features <ul style="list-style-type: none"> • User-friendly interface to increase engagement • Mobile capability – submit from anywhere, at any time • Flexible workflow • Advanced reporting • Connect to users profiles • Role based access • Seamless integration with training management 	Configurability <ul style="list-style-type: none"> • Forms • Format approvals • Automate notifications, escalations and workflows • Connect to hazards • Format approvals • Configure control measures • Add risk assessments
