Hazard and Observations Management

Empowering Safe and Sustainable Operations

Discover the power of Hazard and Observations Management with our comprehensive observation module. This system provides a secure and user-friendly solution for tracking hazards and recording observations. Ensure your workplace is safe, compliant, and sustainable. With real-time data analysis, reporting, and alerts, you can quickly identify areas for improvement and drive continuous improvement in your EHS program. From employee engagement to regulatory compliance, our capabilities have you covered.

Use Cases

HSI EHS Hazard and Observations Management Module would benefit organizations which meet any of the following:

- Have a large number of employees working in hazardous environments, making it important to monitor and control risks

- Have workplaces with dynamic and rapidly changing environments

- Require help identifying and managing risk in real-time

- Are governed by strict EHS regulations and standards, making it important to monitor and maintain compliance

- Have customer-facing environments and need to ensure customer safety and well-being

- Have remote workplaces and need to ensure the health and safety of their employees

The HSI Difference

Complete Oversight & Risk Mitigation: Identify potential hazards, ensure workplace compliance and continuously improve your EHS performance by identifying areas for improvement and taking corrective action.

Reduced Administration: Eliminate manual errors, increase data collection and reporting accuracy with our automated system to show real-time data. Reduce time required for manual data entry and analysis and risk of noncompliance and penalties.

Ultimate Configurability: Customize to meet specific organization, regulatory, industry and company standards. Protect sensitive data with customizable access control. Connect observations to policies, procedures, training and more.

Generate Actionable Insights: Send automated alerts for critical events or issues allowing you to respond quickly. Identify issues and trends across behavioral, health, and safety, compliance, environmental, training and other areas.

Flexible Deployment: Configure our out-of-the-box observations management capabilities to meet your organization's unique requirements, while increasing employee engagement.

Seamless Connectivity: Frictionless integration with the broader HSI platform and using the same UI. Link to other capabilities such as corrective actions, checklists, audits and more.

Risk & Compliance: Adhere to various standards and regulations including OSHA, DOT, OH&S, ISO 9001, ISO 45001 and more.

Features:

- User-friendly interface to increase engagement
- Mobile capability – submit from anywhere, at any time
- Flexible workflow
- Advanced reporting
- Connect to users profiles
- Role based access
- Seamless integration with training management
