

The ROI of Online Training

*Discover the value of our
efficient alternative to
live training, and calculate
your return on investment.*

INTERACTIVE CALCULATOR

Calculate my ROI

Fill in these required 3 fields

*Number of Employees

*Average Hourly Wage

*Number of Courses

Cost Structure Comparisons

Time is money, and getting a better return on investment means finding the most efficient training option. Online training gets workers back on the job, faster.

Live Training		Online Training
	TOTAL EMPLOYEE TIME	
	EMPLOYEE LABOR COSTS	
	INSTRUCTOR(S) NEEDED	
	INSTRUCTOR DELIVERY TIME	
	INSTRUCTOR DELIVERY COST	
	TOTAL COST	

NOTE: Total cost of online training as displayed should not be considered a quote, but a variable estimate based on training content for approximately 100 workers. Length of training time assumed for Live Training is 1 hour. Length of training time assumed for Online Training is 25 minutes.

Productivity Savings

Less time in training, more time working.
Simple.

Online Training Investment

Reduce risk by standardizing training, save on
labor costs, and stay compliant with ease.

Labor Days Saved

SUN	MON	TUE	WED	THU	FRI	SAT
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30				

The savings realized through workforce productivity
pays for your online training investment.

Bottom Line:

There are many reasons to move your **workforce training program online**, but the **money we save for clients is why over 90% return each year.**
