

# The *heart* of chemical intelligence.

## SDS Management Process & Solutions

HSI is a leader in Environmental, Health and Safety (EHS) and workforce development software, training, and compliance solutions. HSI provides e-learning content, training capabilities, and cloud-based software, integrated to enable your business to improve safety, compliance, and employee development.

As a leading provider of chemical intelligence solutions, we enable our customers to better understand the hazardous materials in their workplace. Through tailored applications of our system, we help reduce the complexity and costs of chemical management, giving more time and focus to environmental, health & safety professionals across industries. With HSI, you have the power – and support – to advance your chemical intelligence.
