

Professional Skills Development

An effective employee training and development program goes beyond the compliance courses, like safety or anti-harassment, and can be a competitive advantage when recruiting top talent. Implementing a dedicated Professional Skills Development program helps employees improve soft skills, acquire new knowledge, and advance both professionally and personally.

HSI Professional Skills Development Features:

- Full **accessibility** on any device, from any location
- Microlearning videos that **average 7 minutes** per course
- More than **1,000 employee training and development courses**
- Courses are constructed around the **Korn Ferry** (former Lominger) Competency model
- Our team can **create custom training videos** for your unique messages in your brand voice
- **Translated content** available in Chinese, French, French Canadian, German, Portuguese, Spanish, and Thai and more
- **Off-the-shelf training** for a wide range of industries, plus specialized content for the banking, retail, hospitality, and direct store delivery sectors
