

Safety and Compliance Training

Safety training doesn't have to be a boring, uncomfortable experience. When developed and deployed the right way, online learning can be fast, fun, and — most importantly — have a real impact on employee behavior.

HSI Safety and Compliance Training Features:

- More than 2,500 safety courses
- Fully translated content, not only closed captions
- Full accessibility on any device, from any location
- Additional learning opportunities with discussion guides, quizzes and follow-up lessons
- Subject matter experts provide real-world examples for every course
- Story-driven learning makes content more memorable

Why HSI Online Safety Training:

- Increased ROI by eliminating on-site trainers, physical training materials, and training space
- Provide time freedom to employees to train on their own schedule
- Bite-sized lessons averaging 20 minutes aid in retention
- Keeps annual training fresh and engaging with multiple courses on the same topic
- Robust exams ensure learning objectives are understood, not just clicked through
- Courses are reviewed and always up to date with regulatory changes

We have courses covering occupational health and safety, transportation, food safety, environmental safety, laboratory safety for different workplace settings, and so much more. Some of our commonly assigned courses include:

- Driving Safety
- Fire Extinguishers
- Emergency Preparedness
- Hazard Communication
- Ladder Safety
- Slips, Trips, and Falls
- Lockout/Tagout
