The Single Source Solution to Stay Safe and Compliant

Health & Safety Institute (HSI) delivers a suite of products and services to help businesses, emergency services and individuals improve safety, health and compliance through scalable, technology-powered solutions to fit any organization.

Emergency Care and EH&S Solutions

For companies just like yours, HSI provides award-winning program materials and training options to assist with CPR certification and first aid training needs at both a bystander and professional responder level. We also offer EH&S compliance solutions, including OSHA-approved safety training and workplace chemical and hazardous materials management.

Our Brands

- **ASHI, MEDIC First Aid, and EMS Safety**, delivering high-quality training materials and programs in CPR, first aid and advanced emergency care to healthcare professionals, first responders, employees and the community.
- **24-7 EMS and 24-7 Fire**, providing continuing education based on the most current national EMS education guidelines and firefighter training standards, including CAPCE accreditation.
- **Summit Training Source and Vivid Learning Systems**, offering a robust library of safety training courses, including OSHA, MSHA, DOT and EPA courses, in a variety of formats.
- **SafeTec**, bringing safety data sheet (SDS) authoring, environmental reporting, chemical tracking and inventory services; customizable to fit any size organization in any industry sector.

One System for Total Access

HSI's solutions are delivered to customers through a robust, user-friendly online management and training system. This unique, unified system brings transparency and ease of reporting to your training and compliance program, increasing cost efficiencies and helping ensure consistency across multiple locations and business segments.
