

Making Sense of Safety Training Regulations: OSHA and Beyond

November 21, 2024
10am PT/12pm CT/1pm ET

Today's Speakers

Jill James

MIS
Chief Safety Officer, HSI

Jill James is Chief Safety Officer at HSI where she focuses on product, thought leadership, and regulatory trends. Her 30-year EHS career includes 12 years as an OSHA Senior Safety Investigator, and several years in healthcare, education, biotech, life sciences and the poultry industry.

Jill hosts the Accidental Safety Pro podcast and created the Supervisor Safety Tip video series.

She received her Master's in Industrial Safety from University of Minnesota, Duluth and her undergraduate degree is in Community Health Education.

Kristi McClure

LCSW
Marketing Director, HSI

Kristi McClure worked in the health and human services for over 25 years, first as a social worker delivering direct client care, then in software as implementation project management, content development for online learning, continuing education director, product manager, and now marketing.

She has been with HSI for three years focusing on workplace health and safety training, rules, and regulations.

Today's Webinar

- How to find OSHA standards that include worker training
- Identify other sources of workplace health and safety regulations
- Dispel myths about workplace health & safety training regulations
- Demonstrate the OSHA Safety Training Assessment
- Resources and important links

Regulations (Standards - 29 CFR)

By Standard Number

- [Part 24 - Procedures for the Handling of Retaliation Complaints Under The Federal Employee Protection Act of 1974, As Amended](#)
- [Part 70 - Production or Disclosure of Information or Materials](#)
- [Part 70a - Protection of Individual Privacy in Records](#)
- [Part 71 - Protection of Individual Privacy and Access to Records Under the Privacy Act of 1974](#)
- [Part 1900 - \[Reserved\]](#)
- [Part 1901 - \[Reserved\]](#)
- [Part 1902 - State Plans for the Development and Enforcement of State Standards](#)
- [Part 1903 - Inspections, Citations, and Proposed Penalties](#)
- [Part 1904 - Recording and Reporting Occupational Injuries and Illnesses](#)
- [Part 1905 - Rules of Practice for Variances Limitations Variations Tolerances and Exemptions Under the Act](#)
- [Part 1906 - Administration Witnesses and Documents in Private Litigation \[Reserved\]](#)
- [Part 1908 - Consultation Agreements](#)
- [Part 1910 - Occupational Safety and Health Standards](#)
- [Part 1911 - Rules of Procedure for Promulgating Modifying or Revoking Occupational Safety or Health Standards](#)
- [Part 1912 - Advisory Committees on Standards](#)

Example: [HazCom 1910.1200](#)

PRINCIPLES OF SMART SEARCH:

- Dig for the original source vs. referenced
- Know the source: reputable URL
- Keywords: “should”, “must”, “shall”
- Ctrl + F: keyword search on a webpage
- Verify!

***** This state's OSHA-approved State Plan covers private and state/local government workplaces

****** This state's OSHA-approved State Plan covers state/local government workers only

(Light blue) This state (with no asterisk) is a federal OSHA jurisdiction

- 

State Plan States: Key Takeaways

- **Jurisdiction:** State or Federal OSHA?
- **Regulations:** review all elements of regulations, not just training.
 - Written programs/policies
 - Hazard mitigation/specifications (ex. Guardrails)
 - Inspections/maintenance
 - Performance-based
- **Resources and factsheets on state website:** find and use these!
- **Source of truth:** stick with .gov sites, verify information from the original source (ex. Blog post references)

Training Frequencies

- Prior to use/exposure or Initial assignment of tasks where exposure could occur
- Annually
- Every three years
- As determined by employer
- Retraining:
 - ▶ When worker responsibilities change
 - ▶ New hazard/risk/equipment introduced
 - ▶ Change in assigned duties
 - ▶ Inadequacies in worker's knowledge or use of procedure
 - ▶ Changes render previous training obsolete
 - ▶ Any situation arises in which retraining appears necessary to ensure safety

OSHA Myths

MYTH: If I have my OSHA 10 or 30 card, I'm good.

MYTH: Federal OSHA has the strictest regulations.

MYTH: We don't worry about OSHA standards; we have fewer than 10 employees.

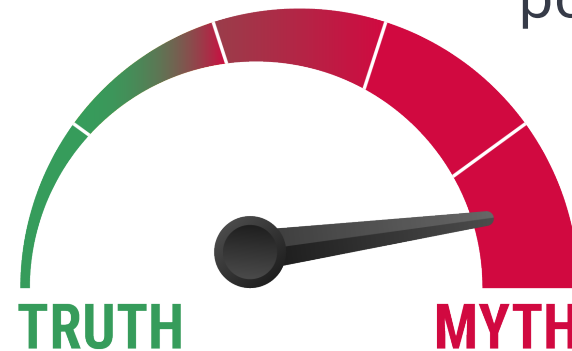

MYTH: OSHA constantly adds regulations, it's hard to keep up.

MYTH: OSHA is the only source of workplace health and safety regulations in the United States.

MYTH: I have to hire an OSHA consultant to figure this all out.

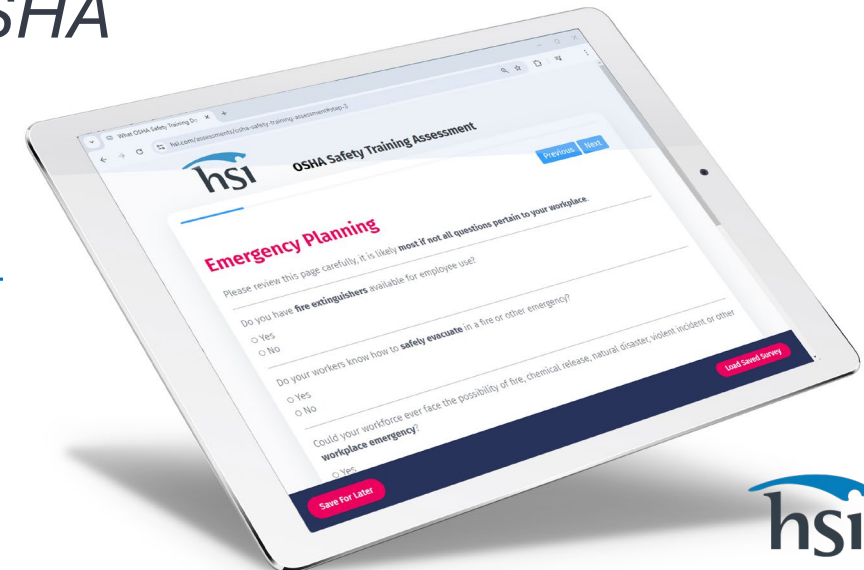

MYTH: We won't get caught if we fail to meet regulations, OSHA doesn't do inspections very often.

MYTH: We meet training regulations by having employees read policies and sign-off on them.

OSHA Safety Training Assessment (OSTA)

- Identify which OSHA regulations apply to your workplace.
 - Practical, easy to understand questions vs. reading OSHA regulations and teasing them out.
 - Personalized report
 - Completed multiple times for different worksites
 - **HSI Exclusive!** *None other like it, not even OSHA*
 - Where is it? hsi.com
 - Training solutions > safety training > OSTA
- <https://hsi.com/assessments/osha-safety-training-assessment>

OSTA DEMO: **Follow along**

Workplace Health and Safety: **International**

General Duty around the World...

Hazards are hazards, but where in the world...

1. General duties of employers to their employees.

(1) It **shall be the duty** of every **employer** to ensure, so far as is reasonably practicable, the health, **safety and welfare** at work of all his **employees**.

United Kingdom

2. Each employer–

(1) **shall** furnish to each of his employees employment and a place of employment which are **free from recognized hazards** that are causing or are likely to cause death or serious physical harm to **their employees**;

OSHA – United States

4. Primary duty of care

(1) A person conducting a business or undertaking must **ensure**, so far as is reasonably practicable, the **health and safety** of: (a) **workers** engaged, or caused to be engaged by the person; and (b) workers whose activities in carrying out work are influenced or directed by the person, while the workers are at work in the business or undertaking.

Australia

3. General provision

1. The **employer shall** have a duty to **ensure** the **safety and health** of **workers** in every aspect related to the work. **European Union**

5. Due diligence is the level of judgement, care, prudence, determination, and activity that a person would reasonably be expected to do under particular circumstances...

To exercise due diligence, an **employer must** implement a plan to **identify** possible **workplace hazards** and take the appropriate corrective action to **prevent incidents or injuries** arising from these hazards. **Canada**

International Workplace Health & Safety Compliance

Canada

Canadian Centre for Occupational Health & Safety. Fourteen jurisdictions - one federal (CCOHS), ten provincial and three territorial - each having its own occupational health and safety legislation, outlining the general rights and responsibilities of the employer, the supervisor and the worker.

European Union

EU-OSHA-European directives set minimum standards for safety and health in the workplace. The EU directives are implemented through the national legislation of Member States. Member states can adopt stricter rules to protect workers, yet they must comply with minimum standards.

United Kingdom

The Health & Safety Executive (HSE) is Britain's national regulator for workplace health & safety. Goes beyond worker protections to include public assurance. Includes guidance by industry and topic.

Australia

Safe Work Australia develops national policy for workplace health & safety and workers' compensation. Regulating is the responsibility of jurisdictions which may have additional laws or variations.
